

Industrial Research & Consultancy Centre (IRCC), IIT Bombay,
is happy to share snippets of diverse, multi-faceted, inter-
disciplinary research and innovative technologies developed
at IIT Bombay with you in a new avatar of its newsletter

RISE@IITB

Research and Innovation in Sciences and Engineering

The first issue of RISE@IITB presents a sample from the myriad of Healthcare research at IIT Bombay, ranging from enjoying guilt-free *gulab-jamuns*, to early detection of Parkinson's Disease, indigenous Cancer treatment, organ-on-chip, a preview of the various centres that have been established to facilitate the Healthcare research and a few of the ensuing technologies and startups launched in Healthcare.

In addition, the issue shares highlights of some of the major projects in diverse emerging technologies, intellectual property, technologies launched, and more...

We invite you to [<click here for online lite version>](#) to immerse into the realm of research at IIT Bombay.
