

## Industry Day on Space Technology

IIT Bombay hosted the Industry Day on Space Technology on 19th August 2026, bringing together leaders and experts from industry, academia and the space sector.

The programme featured a thought-provoking panel on “Shaping India’s Space Ecosystem: Industry, Academia & Government”, along with faculty and industry presentations, prototype showcases, networking opportunities and laboratory visits.

The event highlighted the immense potential for industry-academia collaboration, technology translation and innovation in advancing India’s space ecosystem.
